### **Reloading Data .300 H&H Magnum (Barnes Reloading Manual #3 ...**

The .300 H&H case has been the basis for most of the magnum cartridges designed since. The traditional British factory load drove a 180 grain bullet at a muzzle velocity (MV) of 2750 fps with muzzle energy (ME) of 3020 ft. lbs. The .300 H&H is obsolescent in America, having been replaced by the shorter, more powerful (as factory loaded) .300 Winchester Magnum. For many years the

The .300 H&H Mag. is a bit much for lighter game such as pronghorn antelope, but if it were all I had I would load a streamlined bullet weighing 130 to 150 grains for the flattest trajectory...

### **American Rifleman | Shooting & Loading the .300 H&H Magnum**

The .300 Weatherby Magnum is actually just one of several "improved" or blown-out versions of the .300 H&H, but with the taper removed and the full-length case retained, it has a lot more case capacity, nearly 85 grains. It should be faster, and it is — but it starts to edge toward overbore capacity, so there are diminishing returns.

### **The Late, Great .300 H&H - Rifle Shooter**

Hunters pursuing the largest game now have the destructive power of Barnes TSX bullets as well as the virtually indestructible, straight-tracking, deep-penetrating Banded Solids. Available in weight-matched TSX and Banded Solids in Caliber 375 H&H to 500 Nitro.

### **[EPUB] 300 H H Magnum Barnes Bullets**

The .300 H&H and .300 WSM are extremely similar in case capacity. In fact a gunsmith friend of mine ran an experiment with the same barrel rechambered from .300 H&H to .300 WSM and got essentially identical results with the same powder charges and bullets, and he was not only testing velocity but pressure with a strain-gauge system.

## Read Book 300 H H Magnum Barnes Bullets

The .300 H&H magnum can be hand loaded to produce velocities of 3250fps with 150 grain bullets, 3000fps with 180 grain bullets, 2800fps with 200 grain bullets and 2600fps with 220 grain bullets. That said, those who own collectable rifles may wish to utilize softer, lower wear hand loads of around 100fps slower than the velocities listed above.

### **300 H&h Ammunition - Natchez**

Handloading the .300 H&H is no problem; a good large rifle magnum primer and a healthy dose of medium to slow-burning powder and you'll find the accuracy rather quickly. Mr. deMoulied's load was built around the 180-grain Swift Scirocco II and a goodly amount of Alliant's Reloder 22, sparked by a Federal GM215M primer.
