ACCA Manual D Manual D Duct Designs: Right-D ® is a fast, easy-to-use residential duct sizing and calculation software that takes full advantage of ACCA's and ANSI's standard Manual D Method.

Right-D®: ACCA Manual D Duct Calculation & Sizing

Manual-D is ACCA's duct design method for properly sizing the airflow pathways - the ductwork - within a residential heating and cooling system. Even though this method has been around for many years, it is rarely implemented (and even less-often implemented correctly). Example of a duct calculator tool (www.hvaccharts.com).

Manual-D duct design is rarely used; less-often done ...

Manual D Duct Systems: The duct sizes were based on the equipment selected, duct system geometry, fittings, and duct materials used. The form is meant to be very simple; it is neither exhaustive nor exclusive. There are hundreds of elements in the load calculation, equipment selection, or duct design that could be verified.
