The McDonnell Douglas F-15 Eagle is an American twin-engine, all-weather tactical fighter aircraft designed by McDonnell Douglas (now part of Boeing). Following reviews of proposals, the United States Air Force selected McDonnell Douglas's design in 1969 to meet the service's need for a dedicated air superiority fighter. The Eagle first flew in July 1972, and entered service in 1976.

Assessment. In elementary school, grades may represent rewards from teachers "for being friendly, prepared, compliant, a good school citizen, well-organized and hard-working" rather than mastering the subject material. Schools in the United States have been accused of using academic grades to penalize students for being bored, uncooperative or for talking out of turn.
