Managerial economics is a branch of economics involving the application of economic methods in the managerial decision-making process. Economics is the study of the production, distribution and consumption of goods and services. Managerial economics involves the use of economic theories and principles to make decisions regarding the allocation of scarce resources.

Managerial economics - Wikipedia

69 Explain the Importance of Performance Measurement . As you learned in Responsibility Accounting and Decentralization, as a company grows, it will often decentralize to better control operations and therefore improve decision-making. Remember, a decentralized organization is one in which the decision-making is spread among various managers throughout the organization and does not solely rest ...

69 Explain the Importance of Performance Measurement

Answer: Recall from Chapter 1 "What Is Managerial Accounting?" that manufacturing overhead consists of all costs related to the production process other than direct materials and direct labor. Because manufacturing overhead costs are difficult to trace to specific jobs, the amount allocated to each job is based on an estimate.

Assigning Manufacturing Overhead Costs to Jobs - GitHub Pages

Financial accounting focuses on the reports that managers generate to provide interested external parties a summary of the firm's financial position and operations. Managerial accounting focuses on the information and the analytical tools and techniques that help managers and employees make the right business decisions.
