2 Equations of  
Functions and  
Relations Equations  
that represent  
functions are often  
written in functional  
notation. For  
example,  $y = 10 - 8x$  can be  
written as  $f(x) = 10 - 8x$ .  
This notation  
emphasizes the fact

File Type PDF

Glencoe Mcgraw

Hill Algebra 2

that the values of  $y$ , the dependent variable, depend on the values of  $x$ , the independent variable.
