Consider making a 14" stub, using a 3/4" EMT conduit. Step 1. The IDEAL bender indicates stubs 6" to 1 . Simply subtract the take-up, or 6", from the finished stub height. In this case 14" minus 6" = 8". Step 2. Mark the conduit 8" from the end. Step 3. Line up the Arrow on the bender with the mark on the conduit and bend to 90°.

Consider making a 14" stub, using a 3/4" EMT conduit. Step 1. The IDEAL bender indicates stubs 6" to 1 . Simply subtract the take-up, or 6", from the finished stub height. In this case 14" minus 6" = 8". Step 2. Mark the conduit 8" from the end. Step 3. Line up the Arrow on the bender with the mark on the conduit and bend to 90°.

Bender Guide - Lowe's

Greenlee's website has all the bending charts for the different benders. Also you can download the specific bender's user manuals from them. There are a few differences in the deduct measurements on the sticker and the chart in the user manuals, and I find the chart in the manual to be a bit more on target.
