GULFSTREAM G550 OPERATING MANUAL Pdf Download | ManualsLib

The Gulfstream IV entered service in 1987 and was upgraded to the GIV-SP version in 1993. After serial number 1500, GIV-SP models were modified and renamed the G400. As part of this modification, the brake-by-wire system was replaced with a hydro-mechanical system, landing gear was improved, and upgraded avionics were installed.

Gulfstream IV/SP Specifications, Cabin Dimensions, Performance

The Gulfstream IV and derivatives are a family of twin-jet aircraft, mainly for private or business use. The aircraft was designed and built by Gulfstream Aerospace, a General Dynamics company based in Savannah, Georgia. It received FAA type certification in April 1987 and entered service later that year.

Gulfstream IV Specifications, Cabin Dimensions, Performance

Manuals are provided to all customers upon delivery of their GIV-SPs and GVs. The cabin familiarization video is filmed on board each customer's aircraft. The three-minute videotape identifies emergency equipment locations as well as operation of all emergency exits and doors.
