IATF 16949:2016 represents the next chapter in a storied history of certification for companies that supply to the automotive market. In the United States it began with the harmonization of the "Big 3" requirements into QS-9000. QS-9000 was an important step, but the industry wanted more.

The International Automotive Quality Standard

As stated above, IATF 16949:2016 is the global technical specification and quality management standard for the automotive industry based on ISO 9001:2015. It is designed to be used in conjunction with ISO 9001:2015, and contains supplemental requirements specific to the automotive industry rather than being a stand-alone QMS.

What is IATF 16949? - A short overview

IATF 16949: 2016 is the recently published revision to ISO/TS 16949: 2009, one of the most widely used international standards in the automotive industry. The standard acts as a supplement to ISO 9001: 2015 for automotive quality management systems. Checklists for ISO 9001:2015 and IATF 16949:2016 can be accessed here:
