Markets: Theory and Practice ...

Since 1990, the Islamic capital market has developed rapidly across the globe, from South-East Asia to the GCC region and to Europe, becoming a truly international market for fundraising activities. This strong growth has been driven by the increase in the earnings of oil exporting countries resulting from a rise in global oil prices.

What are the Islamic capital markets? • Any market in which Sharia'acompliant securities are traded. • Includes Sharia'acompliant stock and/or sukuk markets. • Companies and governments use the Islamic Capital markets to raise funds for their operations or expand ongoing activities e.g. • a company may undertake an IPO

An Introduction to Islamic capital markets

Sukuk are Shari'a-compliant certificates which are issued in order to raise finance in a Shari'a-compliant manner and, like conventional bonds, can be listed on international exchanges and, if structured properly, will be tradable instruments in the international markets. However, there are also significant differences between sukuk and conventional bonds, including the fact that sukuk, as ...
