Jeep Fc 170 Engine

Introduced in 1957, FC-170 models had a 103 in (260 cm) wheelbase with a 108 in (270 cm) bed. This was achieved by the forward-control layout. A 1958 concept version of the FC-170 featured a 108 in (270 cm) wheelbase. This was required to accommodate a new 272 cu in (4.5 L) V8 engine (based on the Ford Y-block) with a new transfer case.

Jeep Forward Control - Wikipedia

The ONLY engine ever offered in the FC 170 was the 226 flat head six, and the 134 Fhead in the FC 150's. The only transmission options were the T90 three speed and T98 four speeds, the latter being a rare option for the non dual wheel version FC 170. I've had 3 FC 170's and 3 FC 150's over the years.

V8 Powered 1960 Jeep FC-170 4x4 - Barn Finds

Essentially work trucks - the cab-over-engine Jeep vehicles came in two models: an 81-inch wheelbase FC-150 with a four-cylinder F-head engine, and the 103.5 inch wheelbase for the FC-170 with a six-cylinder L-head engine.

Jeep® History in the 1950s

This 1960 WillysJeep FC170 is a rare find today, especially in decent shape with many original details intact. The seller purchased it as a running project but has not spent much time with it since bringing the cab-over-engine oddball home. The FC-170 was longer and more powerful than the FC-150 it replaced, ...

Cool Cab Over: 1960 Jeep FC170 Truck - Barn Finds

"Jeep FC-170 long wheelbase. Super Hurricane straight 6 engine, 4wd, flatbed, set up for hydraulic dump bed but not fully hooked up. Starts and runs really sweetly, engine idles around 600rpm. New windshield. Lots of body work done on a reproduction cab."
