The redesign of the engine resulted in improvements in engine response at low engine speeds, making the bike smoother and "much easier to ride." [10] Though the previous generation Ninja 250R had a peak power advantage of 1 to 5 hp (0.75 to 3.73 kW), [5] [11] [12] the new version's 20 or 30 percent increase in mid-range power allows the bike to ...

Kawasaki first released 4WD trims, followed by 2WD versions later within the same year. While the Kawasaki Prairie 360 reminded off-roaders of its larger-class sibling, it still held its own in terms of aesthetics and performance. Eventually, the absence of a V-Twin engine did not matter, and riders appreciated the 4x4 for what it had to offer.
