Big Ideas Math Answers Grade 8 Chapter 6 Data Analysis and ...

Answer: The sides of a square are parallel, so line m is a transversal to the sides of the square. That means that the angle next to (to the right of) angle y is equal to angle x by alternate interior angles. That also means that angle x is supplementary to angle y.Thus, x + y = 180. Choice E is the correct answer. For additional ACT Math test sample questions, visit the ACT website.

8. Use Google search to do math. Google search can actually do math for you. This is a rather complex one to describe because it can be used in so many ways. You can ask it basic questions or some more difficult ones. It is important to note that it won't solve all math problems, but it will solve a good number of them.
