Written by teachers for teachers and students. The Physics Classroom provides a wealth of resources that meets the varied needs of both students and teachers.

The Physics Classroom

We use experiments, theory and computation to study motion and matter at the human scale. Areas of interest include the patterns of shape and flow of inanimate matter in systems ranging from the supramolecular to the planetary, and the dynamics of sentient matter that can self-organize, perceive and act in systems ranging from the sub-cellular to the super-organismal.
