Original Springfield 1903 A3 Service

The M1903 Springfield, formally the United States Rifle, Caliber.30-06, Model 1903, is an American five-round magazine fed, bolt-action service repeating rifle, used primarily during the

Access Free Original Springfield 1903 A3 Service Manual

first half of the 20th century. It was officially adopted as a United States military bolt-action rifle on June 19, 1903, and saw service in World War I. It was officially replaced as the standard infantry rifle by the faster-firing semi-automatic eight-round M1 Garand starting in 1936. However, the M1903 Spring

M1903 Springfield - Wikipedia

Developed relatively late in the WWI, the 1903 variant noted in official records as "Stripped for Air Service" is one of the rarest variant models of the U.S. 1903 rifle. The most prominent differences are in the stock and magazine, the former being notably shorter, terminating immediately after the mid barrel band and produced without provision for a sling, the latter swapped out for a fixed 25-round extended magazine.

The new design was adopted in 1903 and so was called the M1903, better known as the Springfield '03. The Springfield featured a plethora of impressive features that were state of the art for its time. It loaded from a 5-round stripper clip, featured a reinforced locking lug, and a flip-up ladder-sight for long distance volley fire.
